Paleo pavers are tumbled to offer the look of old fashioned cobblestones. With four sizes, the patterns that you can create are infinite. Paleo pavers combine the charm of old fashioned stone paving with the strength, durability, and beauty of concrete pavers.

Paleo pavers are perfect for residential, municipal, and commercial applications, including:
- Patios
- Plazas
- Walkways
- Sidewalks
- Driveways
- Terraces
- Pool decks
- Bridge abutments
- Pedestrian malls

### PRODUCT DATA*

<tbody>
<tr>
<td>10.82 ft² (1.01 m²)</td>
<td>9</td>
<td>97.4 ft² (9.05 m²)</td>
<td>303 lb (137.4 kg)</td>
<td>2,777 lb (1,260 kg)</td>
</tr>
</tbody>
</table>

*All metric dimensions are soft converted to Imperial. Dimensions and coverage include 1/16" (1.5 mm) joint.

All Weight per Pallet noted above include a 50 lb pallet weight. Paleo must be purchased by the full layer—sizes are mixed on each layer.

### PURCHASE REQUIREMENT

All four (4) Paleo units are mixed on each layer. Paleo must be purchased by the full layer, or full pallet.

### STANDARD SPECIFICATIONS

Paleo pavers are manufactured to industry standard specifications, ASTM: C 936 and CSA A 231.2.

### AVAILABLE COLORS

For more information regarding custom colors, please contact a Mutual Materials sales representative. Custom colors may be restricted by the size of the order or project.

### INSTALLATION PATTERNS

Paleo pavers can be installed in a number of random or linear patterns. Experiment until you achieve the look that you want, or follow the basic layout shown at right. Pavers are installed in a random order in each row/column and can be installed vertically or horizontally.
INSTALLATION INSTRUCTIONS

For more specific and detailed instructions, please contact your Mutual Materials sales representative.

Materials Needed:

| Base Rock: | 3/4” minus crushed rock  
Residential (pedestrian) 4” thick  
Residential (vehicular) 6”–8” thick  
1 cubic yard = 300 sf @ 1” depth |
| Bedding Sand: | Clean, washed (concrete) sand  
1”–1½” depth  
1 cubic yard = 300 sf @ 1” depth |
| Joint Sand: | DesignMix Paver Joint Sand (80 lbs bag)  
1 bag will cover approx 100 sf |

Necessary Tools for Paver Installation

- Shovel (flat and pointed)
- Rake
- Wheelbarrow
- Stakes (for setting grade)
- String lines & line level
- Hammer
- Push broom
- 8’ 2 x 4 (strike board)
- (2) Screed pipes (metal)
- Tape measure
- Trowel
- Garden hose w/spray nozzle
- Flat Head screwdriver
