CottageStone® Round Fire Pit

Size:  
Outside Diameter: 45”  
Inside Diameter: 28”

Piece Count: 33 pieces

Instructions
1. Remove packaging from the fire pit on the pallet.
2. Prepare the fireplace location by establishing a level surface about 45” x 45”.
3. Remove the black fireplace insert and set aside.
4. Place 11 pieces in a circle.
5. Place 11 more pieces to form the second layer. Offset or center the stones over the joints of the first layer.
6. Place 11 more pieces to form the third layer. Offset or center the stones over the joints of the second layer.
7. Fill the inside of the fire pit with gravel or base rock so the metal insert sits flush with top of fire pit. Place insert into the fire pit. If insert doesn’t fit, tap outward the blocks that are preventing the insert from seating.

Fire pits should only be built over a non-combustible surface. They may be installed on concrete patios, pavers or a compacted gravel base. Never install over a wood deck.

Build it today, enjoy it forever.  www.mutualmaterials.com
