Hello,

Thank you for considering Mutual Materials for your project.

At Mutual Materials our purpose is building beauty that lasts. We help our customers build better, more inviting communities by providing appealing masonry and hardscape products that stand the test of time.

Our high quality masonry and hardscape products are ultimately used to create beautiful buildings, family homes, relaxing public landscapes and private outdoor living areas. It is inspiring to see the visionary uses of our products in our community, creating hospitals, schools, stadiums, businesses, homes, parks and backyard spaces.

Mutual Materials is also a family business and we locally manufacture the products we sell. From humble beginnings with one brick plant in Seattle during 1900, we have grown today into a major regional employer operating more than 10 manufacturing plants and 16 branch offices across Washington, Oregon, Idaho, Montana and British Columbia.

On behalf of the team here at Mutual Materials, we appreciate our customers. Thanks for the opportunity to win your business, and we hope that we can help you build beauty that lasts.

Sincerely,

Kendall Anderegg
President, Mutual Materials

THIN BRICK FOR INTERIORS & EXTERIORS

Available for both commercial and residential applications, Slimbrick® enriches design ambience for retail stores, offices, restaurants, businesses and home interiors including kitchens, home offices and living areas.

PERFORMANCE

For constructing buildings with lighter frames that cannot support the weight of full-size brick on higher elevations; Slimbrick is the answer. Our genuine clay Slimbrick has the same benefits of regular brick with greater installation flexibility.

Slimbrick genuine clay masonry meets all of the appropriate (ASTM 1088) standards for thin brick veneer. In addition to providing the aesthetic value of full brick, wall systems with Slimbrick can offer the same thermal, acoustic and fire protection benefits.

BEAUTY

Are you looking to add the character of brick to your project? With 50+ rich colors that will endure for decades without fading, Slimbrick colors can be combined to create custom blends that are uniquely yours and build beautiful features that stand the test of time.

SUSTAINABILITY

Inherently eco-friendly, Mutual Materials Slimbrick may help contribute to LEED points because it is locally manufactured, includes post-industrial recycled content and has a long life cycle.
Add the Beauty of Brick

Brick is not just for construction anymore. Now with Slimbrick tile, it’s easy to add the beauty of brick almost anywhere. With 50+ rich colors that will endure for decades without fading, architects, designers and homeowners can build uniquely beautiful features that last.

ARCHITECTURAL SERIES

For constructing buildings with lighter frames that cannot support the weight of full-size brick on higher elevations, Slimbrick is the answer. With the classic appearance of full-size brick, but with thinner dimensions, Slimbrick is well suited for applications where weight, thickness, or codes require a thin veneer product.

With 50+ rich colors that will endure for decades without fading, architects and designers can build uniquely beautiful features by combining Slimbrick colors to create a signature custom brick blend.
SPECIAL ORDER COLORS SHOWN.

Not all colors, shapes and sizes are shown. Please see Facebrick colors on our website for the full potential range, or contact your local Mutual Materials sales rep for current listing.
