A Message from our President

The story of Mutual Materials began over 120 years ago with an innovative brick mason from California who came to Seattle to join in the rebuilding effort after The Great Seattle Fire of 1889. Since then, we have grown into one of the largest family-owned masonry and hardscape products manufacturer in the Pacific Northwest. We are proud of the contribution our company and products have made in building the communities we live in, from our local sports stadiums and neighborhood schools to homes, and beautifully landscaped backyards. Our core value of building beauty that lasts means that the products and materials we use to build schools, stadiums, commercial buildings, and family homes and gardens will be there for future generations to enjoy.

Our commitment to our customers has not changed as we have grown and expanded over the years. Right Product, Right Place, Right Time – getting you what you want, where you want and when you want it – is the promise that Mutual Materials’ entire team is dedicated to meeting every day.

On behalf of all of us at Mutual Materials, I want to thank you for continuing to consider making our products part of your homes and communities. We know that our customers are the reason we are in business and whether you shop online at www.mutualmaterials.com or in one of our branches, we appreciate you.

Sincerely,

Kendall Anderegg
President, Mutual Materials

THIN VENEER

Mutual Materials features a wide range of natural stone thin veneer selections along with additional product offerings from our partner quarries. We have two primary stone yards along with a few designated distribution yards which supply all of our branches. Availability for the selection of products listed in this guide varies.

Please check with your local Mutual Materials branch to determine which products are in stock and what the transit time is for delivery. Non-stock products are available for special orders and the time frame for those products being available is based on the quarry.

The following pages are a guide to illustrate the selection of special-order products as well as the products we carry in our stone yards. Boulders, slabs, and columns are available at specific locations due to the specialized equipment required for handling and delivery. Also included in this guide are custom-order specialty products and applications.

Stocking products are generally in a Squares & Recs or a Ledgestone configuration. Special-order products can be ordered as specific cuts if desired. You may want to order a product with Squares & Recs with 20% jumpers, for example. Jumpers are large pieces and can break up our patterns.

Custom orders can include a mix of stone or styles as well, depending on your design. We are happy to order in any style, color, or stone as you need. We can add these orders on our regular stocking orders from any quarry.
